

BT-LUCE

Instructions

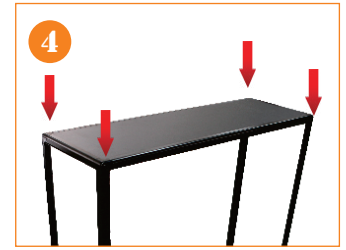

1. Luce counter hardware and parts are enclosed in the wheeled soft bag.

2. Take the hardware and parts out of the bag.

3. Assemble the base of the counter (with transformer) by inserting 4 corner poles in each side.

4. Secure the top of the counter by inserting each side in the 4 poles.

5. Remove the top cover, un-roll the LED light.

6. Hang the LED lights on the top of the frame.

7. Attach the bottom aluminum bar to the base velcro.

8. Connect the LED lights to the transformer.

9. Replace the top cover to complete the installation.

10. Install the graphic by pressing the silicon edges around the counter.

11. Completed Luce light box counter with graphic.
